	\$53,952	\$61,019	\$68,086	\$75,153	\$82,220	\$89,287	\$66.70
	\$57,147	\$64,214	\$71,281	\$78,348	\$85,415	\$92,482	\$77.05
<i>If Household Gross Income is greater than above your rates are</i> 							\$80.00

To Find your weekly Child Care Rate:

1. From the left table, find the number of people in your family across the top. Follow down the column until you find the amount that is just above your current household gross income.
2. Follow the row across to the right table. Select the Care Plan from the column heads. That is your weekly rate.

EXAMPLE: A Family of 4 people is making \$56,000.

a. Find the the column in the left table marked "4", follow down to the box marked "\$57,799". This is the first box that is higher than your \$56,000 income, in that column.

b. Follow that row to the right until you come the "Weekly Rate" column on the right table. Your weekly rate is \$56.35 per
