

The Making of Technology

StudioDynamix.TV

What is Studio Dynamix TV?

Studio Dynamix TV strives to develop effective communication and technical skills, while promoting teamwork to create and deliver high quality video commercials, news programming and music videos to our school community. Our major focus is producing TV commercials for local businesses and organizations, along with creating other specialty video productions throughout the school year.

What is “project based learning”?

Simply put, project based learning is where you “learn as you go”. No prior experience is necessary to become a Studio Dynamix tech or actor.

What will you do during your time with Studio Dynamix?

Your time will include many learning and engaging facets of TV production. Along with your crew, you will rotate among various jobs. You will also experience script writing, selecting graphics and music, camcorder operation, formatting graphics, directing, working with digital photography, setting up lighting, checking microphone levels, designing chromakey (green-screen) backgrounds, producing custom DVDs, and much more.

Who is eligible to participate in Studio Dynamix?

Studio Dynamix TV is available to all JFK students. You are already enrolled!

How do you get started?

Complete a JFK After School application and drop it at the Guidance Office.
